

Since 2003, 70% of young people who were raised in the church have left, and over half of them no longer identify as Christian.

At the same time, we are seeing a growing interest in Christian faith and spirituality among young people.

Veta Youth is effectively responding by engaging young people from all backgrounds in transformational experiences of Christian growth.

Through Veta Youth, individual young lives and whole communities are being transformed by Christ. We are delivering youth discipleship at a scale and level of impact that is unmatched in Australia.

Veta Graduates are providing Christian leadership in schools, churches, families, communities and businesses across the country. We need to see more of this, in more places, more often.

With a 20 year track record, we have the credibility, the know-how, the strategies, and the systems in place to see this impact grow exponentially in the next 5 years.

What we need now is the financial resources to scale.

Veta Youth exists to raise generations of young people in the Christian life and send them out to influence and give hope to the world.

Who we are

The founder and director of Veta Youth is Rev. Rohan Waters, an ordained minister and registered teacher. He leads a team of gifted and committed Christian leaders. Rohan has over 30 years' experience in youth ministry, and developed the Veta model for Christian growth while studying at Oxford University. Further information about the Veta team is available at www.veta.au.

What we believe

Veta Youth confesses the Lord Jesus Christ as God and Saviour according to the Scriptures and seeks to fulfil its calling to the glory of the one God - Father, Son and Holy Spirit.

Our guiding Bible verse is Romans 12:2:
"Do not be conformed to the pattern of this world, but be transformed by the renewing of your mind."

What we do

We raise up generations of young Christian leaders in schools and Churches across Australia and beyond through:

veta
morphus

We take year 11-12 students through a year of growth and transformation in the Christian life that contributes to their year 11-12 certificate and university pathways. This is delivered through VET system. **Over 4,800 completed and 409 currently enrolled.**

veta
neo

We equip teachers and leaders to take young people on an authentic journey of faith in Jesus across years 7-12.
12 schools and 2,000 students are currently ready to pay & deliver.

veta
coaching

We help mature Christian people engage in fruitful discipling relationships with young people through a 6-week training course in person and/or online. **42 coaches trained across 4 states, Train-the-trainer program launching in Oct 2024.**

What's most important now?

1. Expansion of Veta Morphus

We have the realistic opportunity to see over 2,500 students graduating each year from Veta Morphus. Already in South Australia, just over 1% of all students complete it as part of their year 11-12 studies. If this number was replicated in each state, then our target would be met. Our aim is 500 students in 2025, reaching 1,000 by 2028, with ongoing growth from there. Additional funding will enable us to reach more students sooner and build the organizational capacity required for sustained growth.

2. Delivery of Year 7-12 spiritual formation pathway

We currently have 12 schools ready to take over 2,000 students through our Veta Neo discipleship experience. And that's just the start, with over 50 schools already expressing strong interest. Our clients have a strong need and desire to disciple their youth more effectively, and they are looking to us for strategies and support. We have the relationships and credibility with them, and the vision and strategy to deliver. 90% of the infrastructure is in place, but we simply can't deliver fast enough.

Your urgent investment now will enable us to launch with our delivery-ready clients in 2025, and then quickly expand across our broader networks. With your support, there is a real possibility of explosive growth to over 10,000 students engaging in transformational Christian discipleship within 3-5 years.

How can you help?

Discipleship Partners – Commit to giving \$1,000 per year

Your regular donations will form the backbone of the Veta Discipleship Movement

One Off Donation

Even the smallest donation enables young people get involved.

Major Donors

To break through growth barriers and fast-track longer term plans

Thank you for your investment in scaling our impact
