

The background of the slide features a sunset scene with three silhouetted figures. The figure on the left holds a camera on a tripod. The central figure holds a long, thin object, possibly a scroll or a banner, high above their head. The figure on the right holds a skateboard horizontally above their head. The sun is low on the horizon, creating a bright glow and lens flare.

# Endorsements

---

## **Student – Suncoast Christian College (QLD)**

“Veta Morphus was a great program that really allowed me to explore and grow in my faith, in an environment where I was able to ask questions. Not only did we dive into the bible, but we also explored what it means to live out our faith practically in the world today.”

## **Student – Encounter Lutheran College (SA)**

“Veta Morphus has been one of my highlights of the year. Being able to be engaged with fellow Christians who are wanting to seek God and explore faith has been encouraging, inspiring and exciting. I know that through Veta Morphus God has grown me, stretched me and encouraged me to live a life that honours him, and the peer group environment supported that. I now feel more confident in my faith, and I have made life-long friendships. Veta Morphus is something I would recommend to any young person seeking God.”
